Vispera Internship Program Application for Vispera

Generated on 2/7/2026

Professional Summary

Motivated and technically skilled Computer Science graduate with strong experience in building scalable software solutions and proficiency in programming languages and development tools. Passionate about using cutting-edge AI and data analytics technologies to enhance business performance, making me eager to contribute to Vispera's innovative vision.

Work Experience

Senior Software Engineer

2021-01-01 - Present

Tech Corp • San Francisco, CA

Led the development of a microservices architecture for an e-commerce platform, improving scalability and performance.

- Reduced API response time by 40% through optimization techniques.
- Implemented an industry-standard CI/CD pipeline, decreasing deployment time by 60%.
- Provided mentorship to 3 junior developers, fostering skill development and collaboration.

Full Stack Developer

2019-07-01 - 2020-12-31

StartupXYZ • Remote

Developed and maintained high-performing web applications, focusing on functionality and user experience.

- Designed RESTful APIs accommodating 100k+ daily requests, ensuring efficiency and reliability.
- Integrated real-time features using WebSockets, enhancing user interactivity.
- Significantly increased test coverage from 40% to 85%, improving application stability.

Technical Skills
